## Hollow Metal Doors

The on-going high level of construction activity in the Kingdom of Saudi Arabia has strengthened the demand for a huge range of high quality architectural products from competent local manufacturing sources . The Metal Door Industry is a very good example of this type of activity.

Steel doors are favoured for many applications in modern buildings due to their strength and durability , accurate manufacturing tolerances , superb long-life finish and also to the fact that they can be supplied with various compliant Fire-Ratings where required .

**TRUMPF 3000 PUNCHING MACHINE**

The manufacturing processes and human skills required for metal doors can also be adapted for other pressed and folded steel products such as IT Cabinets and Cable-Trays all of which are common items in most modern buildings .

Wajhat Metal Industries is a metal door division under the ownership of Al Harbi Holding Group and is established in a 10500m<sup>2</sup> custom-designed and equipped factory in Riyadh .

**WMI Product Range comprises three distinct products**  
**HOLLOW METAL DOORS**  
**PRESSED METAL CABLE TRAYS**  
**PRESSED METAL IT CABINETS**  
 all of which are available in standard or purpose-made dimensions from best quality rolled steel.

Assembly processes are done on the most modern European & American machinery including pressing , folding , drilling and notching as well as welding of all corners to assure perfectly smooth and invisible joints . All products are finished in high grade polyester powder coatings in a wide range of colours , all of which is done at WMI's in-house PPC Coating Facility .

WMI hollow metal doors are filled with rigid polyethylene foam ( non Fire-Rated ) or Rockwool for Fire-Rated doors and can incorporate glazed openings in a wide variety of safety glass combinations .

Top quality weather-seals and many combinations of hardware , including panic-rails , are available to suit virtually any specific application .

Swinging Fire-Rated doors with , or without , fixed side windows and / or transom lites , have been tested by the "Underwriters Laboratory " ( UL ) in the USA and are fully certified through UL Certificates of Compliance .

**Furthermore , WMI can offer Blast-Resistant doors up to 100 psi as a standard product , and can even achieve higher psi – ratings upon special request .**

WMI provide a complete Technical Sales & Advisory Service through their extensive Marketing Department . All orders for Doors , Cabinets and Cable-Trays are prepared for manufacturing through WMI's professional Engineering Department and a comprehensive QA/QC organization has been set up to ensure that manufacture , storage , packing , loading and delivery to Customer are all done at the highest level of attention to detail .

WMI is your strong Partner at every stage of the design process from Concept through to installation of our products which are built to endure the full life-cycle of your building !
